The Successful March of the Ser-
vians to Sofia.

By Cable to THE SENTINEL.

BELGRADE, Nov. 17.—General Topolovitch with the Moravia division, had a desperate battle with Bulgarians at Trn and the latter were totally defeated. The Servians fought with great gallantry and captured two guns and many prisoners. Three battalions of Bulgarian surrendered. A battalion of Bulgarian volunteers stationed at a point on Timok river, capitulated without firing a gun.

To Colonel Djukmenich, commanding the Servian Timok division: "The Bulgarians yesterday evacuated their fortified position at Dragoman which the Servians attacked on Sunday. The details of the capture of Dragoman pass by Servians, show that the Diema and Shumadja divisions under Colonels Michkovitch and Benecky were engaged and attacked the Bulgarians in force, completely routing them. Hoards of the Bulgarians laid down their arms, being panic stricken. Several guns were captured and the pass abandoned."

The headquarters of the Servian army has been fixed at Terabrod.

The Servian division, marching on Middin, gave battle to the Bulgarians near Middin and inflicted upon them a crushing defeat. The loss is heavy on both sides. The Servians captured 1,000 prisoners.

BELGRADE, November 16.—It is reported from the front that the Servians, having turned the Dragoman pass, are now marching on Sofia, and that the road to the line of intrenchments of that city is clear.

MADRID, November 16.—The pope has recognized Spain's sovereignty over the Caroline islands and advises Germany to accept the concession, contained in the Spanish note of September 10. The decision, it is said, was presented to Germany and Spain today.

PIROT, November 16.—The Bulgarian troops are making an obstinate retreat along the whole line. Five hundred Bulgarians have been taken prisoners. The Servian telegraph official have been forbidden by their government to accept from foreign war correspondents, any dispatches relating to the movements of the army.

CONSTANTINOPLE, November 16.—The fifth and probably last sitting of conference on the Roumelia question was held to-day. M. Neliloff, the Russian ambassador, was present. The delegates agreed on the principal points at issue. It is believed that owing to the efforts of Germany, it will be possible to localize the war in the Balkans.

LONDON, November 16.—The Times severely censures the conduct of Servia, in declaring war against Bulgaria and says: "It is evident that Servia acted on the prompting of Austria, and although it is not to our interest to prevent a conflict between Russia and Austria, we cannot help feeling that Austria's course of action is neither dignified nor straight forward and she will refuse to accompany Germany in the lines of deference to Russia. This portends serious changes in the system of European states."

LONDON, November 16.—The long overdue steamer, Sidonian, of the Anchor line, has been towed into St. Michaels by the Italian steamer, Independe. The Sidonian left New York September 19, for Genoa and Leghorn. She was reported with shaft broken and was last seen on October 22.

It is reported that King Milan, at the head of a body of his troops, attempted to attack the Bulgarian rear, but was met and repulsed by a force under Prince Alexander.

PARS, November 16.—Prime Minis-

a statement in the chamber of deputies, to-day, of the intentions of the government. He said the government would not hesitate to adopt fresh measures of taxation if it were necessary to cover the deficits in the finance department, arising from commercial depression, and military expenditures. He hoped the French protectorate over Annam would shortly show good results and permit the recall of a portion of the French troops in that country in the coming spring. A residency general will be established there at the capital city and an administration adopted for the government of the county, similar to that of Tunis. The cabinet will shortly ask the chamber to vote first credits on account of Madagascar, when the government will furnish further details thereon. He said the cost of the expeditions to Tonquin and Madagascar had borne too onerously upon the finances of the government and it behooved France to abandon her former policy, having, however, due regard to the national interests and the honor of the country. It was proposed, therefore, to establish a system of protection at Hue which should radiate throughout Annam and Tonquin and at the same time carefully avoid everything that might lead to the eventual annexation of those countries. The king of Annam would administer the government of the whole country under the guidance of the French resident. The statements made by the prime minister are taken to indicate the collapse of the French enterprises in Tonquin and Madagascar.

RANGOON, November 16.—The steamer Doowoon recently sent to Mandalay, to bring away the Europeans detained there by the Burmese government, has escaped from there and reached the British lines. When the authorities at Mandalay discovered the Doowoon moving out into the river, they opened a heavy fire on her and sent a force to board her. The boarding party were repelled by the crew of the Doowoon and having got on a full head of steam, the vessel ran the gauntlet and escaped with little injury. The Italian consul and the other Europeans are still detained at Mandalay, not having been able to get on board the Doowoon.

Greece into War.

ATHENS, Nov. 17.—The invasion of Macedonia by the Greek army is imminent.

The B. & O. Railroad.
By Telegraph to THE SENTINEL.

BALTIMORE, November 16.—The annual meeting of the stockholders of the Baltimore & Ohio railroads was held to-day, when the fifty-ninth annual report of the president was read. The report shows the revenues from the main stem and the several divisions for the past year to have been \$16,999,960 or 2,819,965 less than for last year. The earnings of the main stem were \$9,733,251 and expenses \$5,763,331. The surplus fund amounts to \$47,814,615. The report says that work on the line between Baltimore and Philadelphia is nearly completed and the track laid for 87 miles of the distance and the remainder is being pushed rapidly. It is expected the bridge over the Susquehanna river will be completed by the first day of January next.

During the year \$216,643 was disbursed for the relief of members of the Employees' Relief association. The following stockholder directors were elected: William F. Burns, Spear Nicholas, John Gregg, William W. Taylor, J. C. Cole, G. A. Von Lorigen, D. H. Miller, Joshua G. Harvey, George W. Dobbin, Henry C. Smith, Abrey Pearre and Harrison Garrett. The president will be elected at the next monthly meeting of the board of directors. No opposition to the re-election of Robert Garrett is known.

CHICAGO, November 16.—It is rumored here to-day that Azari, one of the Italian murderers hanged on Saturday, was not killed and at the time when the coffin were opened at the cemetery his body had changed its position and showed signs of life. It is said that the attendants, alarmed at the discovery and fearing that the murderer's restoration to life would cause him to suffer a second hanging, hastily screwed down the coffin lid again. The coffins were placed in the vault, owing to the indications that the bodies, if buried, would be taken from the graves. Mr. E. G. Meli, president of the society for the burial of indigent Italians, to whom the bodies were delivered, was seen to-day in relation to the rumor. He admitted that the body of Azari had changed its position, but believed that life was extinct when the coffins were opened.

The Billiard Match.

Single admission tickets for the Chicago string quartet can be obtained for twenty-five cents. No extra charge for

crowd was present at the 14-inch balk line billiard tournament in which Maurice Vignaux, of Paris; Jacob Sebeffer, of New York, and George F. Slosson, of Chicago, are the contestants. The winner of the tournament is to be entitled to receive the whole of a purse of \$3,000 and the excess of receipts over expenses. It is expected that the prize will aggregate \$5,000. The tournament was formally opened shortly after eight p. m. by an address by Judge Cary, of the superior court, of Chicago. At each of the players was introduced, a hearty round of applause was given, Slosson getting rather the warmest reception. Wayman McCreery, of St. Louis, acted as referee and Charles Matthews served as umpire. At the end of the seventh inning the score stood Slosson 265; Vignaux 214. The best run was made in this inning, by Slosson, who scored 89 points.

Game well contested Slosson on the thirty-first inning 600; Vignaux 531. Highest runs, Vignaux 106; Slosson 89. Winner's average 19 11-13.

BRIEF TELEGRAMS.

OTTAWA, November 16.—On order in council has been passed, appointing Lieutenant A. R. Gordon, Toronto, a court tribunal, to hold an investigation into the wreck of the steamer Algoma.

CINCINNATI, O., November 16.—In the election mandamus case, before the circuit court, to-day, arguments were begun. They will probably be concluded to-morrow.

LOUISVILLE, Ky., November 15.—Deputy United States Marshal, H. W. Rogers, has been shot and fatally wounded in Harlan county, Kentucky, by an unknown assassin, who fired through the window at which Rogers was standing. He had been beaten in the building too long found the stairway burning and jumped from the third story. The brother was badly hurt. Loss, \$60,000; insurance, \$6,000.

budly damaged. Loss \$10,000; insurance \$4,350.

The Business South.

By Telegraph to THE SENTINEL.

CHATTANOOGA, Tenn., Nov. 17.—The Chattanooga furnace which closed for repairs, resumed operations yesterday. The iron trade here is much more active and manufacturers are encouraged over the outlook. All the mills and furnaces in Chattanooga are now in full operation.

All the general freight agents in the south will meet in this city to-day to endeavor, if possible to avert a war of freight rates which now seems inevitable.

Constitutional.

By Telegraph to THE SENTINEL.

COLUMBUS, Ohio, Nov. 17.—The supreme court this morning rendered a decision holding the penitentiary patrol law, passed by the last legislature, to be unconstitutional. No decisions were announced in the Cincinnati election mandamus case, nor on the validity of the registry law. The court adjourned till Thursday morning.

PITTSBURG, Pa., Nov. 17.—The officials of the Baltimore and Ohio railroad company, after thorough investigation, have decided that the accident near Connellsville last Thursday, in which twenty persons were injured, was caused by a defective frog at the switch.

Character-Building.

In character-building, as in building a house, it is important to have a plan to build by. If you would build well, study the best models—men and women of the best type—but remember the most famous are not always the best. Study the pictures drawn by the pens of inspired men, but study most the character of the man Jesus. His character was perfect. It is important, also, to build on a good foundation. When a man determines to put up a costly structure he is careful that no defect is found in the foundation. Be sure to start right. "Other foundation can no man lay, but that which is laid, which is Jesus Christ." The make Jesus both your model and your foundation.

GUARDING A "ROLLER COASTER."

La Fayette's new "roller coaster" at Linwood Park has a vigilant night watchman in ex-Policeman John McGrath, who is careful to see that no daring spirits take surreptitious rides upon the coaster during the hours of darkness, and who is himself a most fearless and gallant rider. Mr. McGrath is a hearty looking man, but yet has had occasion to lament the fact that a policeman's lot is not a happy one." The truth is Mr. McGrath has suffered from that distressing complaint—rheumatism, but he is no longer afflicted with it. Athlophoros cured him and he is now as well able to chase down any evil-doer and land him behind bolts and bars as he ever was. Being asked as to his rheumatism and cure Mr. McGrath gave this account:

"I was taken with a severe attack of rheumatism in the hip. I suffered much pain and was obliged to quit work entirely. I was helpless so far as walking was concerned and was confined to my bed for six weeks. In my efforts to get relief I used many kinds of medicines and liniments, but they failed to make any change for the better. After trying so many kinds of medicines I was very loath to experiment with any new remedy, but seeing Athlophoros recommended so highly I purchased a bottle. After using the one bottle I was entirely well and able to go to work. Have I had any return of the pains since? None whatever. I have not lost a day's work since."

Mr. W. B. King, the dealer in sewing machines at the corner of Fifth and Columbia streets, has had an equally satisfactory experience with Athlophoros in curing rheumatism.

"It was magical in its effects upon me," he says. "I was first taken with pain in the soles of my feet and in a few hours was not able to walk at all. The rapidity with which the disease spread over my whole system was wonderful. Every bone, muscle and joint in my body gave me the most intense pain. My arms were both drawn up, and I could not walk, eat or sleep. I suffered in this way for many weeks. Finally, by the persuasion of a friend who knew of Athlophoros, I was induced to try it. He had taken but a few doses when I had very decided relief. I continued taking the medicine until I had used six bottles, and I have not had a pain of rheumatism since."

Still another result of La Fayette, Ind., who has used the wonderful remedy with the happiest results is Mrs. A. E. Sherman, of No. 157 Main street, who suffered so severely with sciatic rheumatism that at times she could not walk.

"I tried every kind of liniment, besides many medicines," says Mrs. Sherman, "but could get no relief. I finally said: 'Well, I am going to try this Athlophoros; it is spoken of very highly.' After using about three-quarters of a bottle I began to experience relief. I used about three bottles and have not had any pain since. My mother, Mrs. Lain, who lives with me, is now seventy-seven years old, and for about five years was badly crippled with rheumatism. She was much worse than I; in fact, at one time we thought she would never get well, and more as an experiment than anything else I gave her a quarter of a bottle of Athlophoros. She got some relief even with that small amount and continued using it to the extent of four bottles. She does not have any pain now, still but some stiffness in her joints."

If you cannot get ATHLOPHOROS at your druggist, send us your name and address, and we will send you a bottle of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed.

THE new marriage law in Pennsylvania imposes so many penalties upon the officiating clergyman who violates any regulation that a special handbook or guide has been issued, with which the wary minister goes around on all occasions.

The Logansport Journal says: "The newspaper fever which has been raging at Lafayette threatens to break out in Logansport. The newspaper fever is like the small pox in that a man never has it and gets well and takes it a second time. Experience is the only vaccination against this contagion."

NORWICH HERALD: A New York physician, who looks fifteen years younger than he really is, attributes this favorable condition to the use of lemonade taken regularly four times a day. He has used 3,000 lemons a year for ten years. If he were making lemonade for sale at a circus he wouldn't use 3,000 lemons in 100 years.

JOHN SHERMAN will now be one of three men of the country elected to five full terms to the United States Senate. Thomas H. Benton of Missouri was the only man who served thirty consecutive years in the Senate. Henry B. Anthony was elected to five full consecutive terms to the Senate by Rhode Island, but he died soon after entering his fifth term.

Mrs. A. T. STEWART is credited with ingenious charity in employing a number of poor women to clean her marble palace daily. They work four hours and receive \$2.50 each. Other women are employed to clean silver at \$3 a day, and men who brush the statuary get \$5 a day. These latter are said to be old sculptors, past other means of earning a living.

A LADY asked Dion Boucicault one day, as *Harper's Weekly* learns, how it was that on the evening before, when he appeared as Conn, his mustache was wanting, though it was both black and brilliant when he did not act. "Madam," he replied, stroking it softly, "there is no mystery here. In making up as Conn I simply soap it well and cover it with rouge."

A WOMAN's club in Chicago has made a move in the right direction by opening a school for the training of servants. All branches of housework are taught, and an intelligence office established in connection with the school secures places for competent graduates. This is putting charity upon a practical and substantial basis, and the example is one which should be widely followed.

THREE years ago Jay Gould had \$50,000,000 in stocks and bonds, and he has no doubt since then added one quarter or more to the principal. The way in which his possessions were then known is thus explained: His credit was severely attacked at that time and he therefore made an exhibit of his resources to John T. Terry, who certified to the fact. Gould suffered his share in the shrinkage, but on the other hand he has made immensely out of the L. road and the telegraph. His wealth may now be estimated at \$75,000,000.

THE manager of an electric company says that it is found that wherever steam is used to obtain twenty-five horse power or less, electricity is more economical. The advantages are: a smaller space occupied, much less noise and no heat, and the fact that the power can be turned on or stopped at will. There is no boiler required and no fire, as the power is supplied to the motor by wires from a central station, on the same principle that gas or steam heat is supplied.

THE sexton of a Connecticut graveyard says that an English gentleman who visited the place last summer "sifted three graves" to find a signet ring believed to have been buried with its wearer, one of the earliest settlers of Connecticut. The ring was wanted to make good a claim to certain property in England, question being raised as to the authenticity of the impression on certain seals. The necessary permission having been procured, the Englishman, a lawyer, representing a well-known family, sifted with the utmost care the three graves, and the dust of mortality yielded up no ring, and he returned to England empty-handed.

THE expense to the Emperor of Austria, or rather to his subjects, of the recent Imperial meeting was something extraordinary. It is said, in fact, to have been the most costly thirty hours in the history of royal interviews. There was sent from Vienna 500 beds with bedding, 60 court carriages, 150 horses, 1,000 pieces of carpet, 400 pairs of curtains, 300 complete breakfast services, 7,000 sets of silver forks and spoons, 400 coffee-pots, 300 tea-pots, 10,000 wine glasses, 10,000 plates, 1,500 bottles of the finest Rhine wines, 2,500 bottles of claret, 3,000 bottles champagne, 300 bottles of liquors, 200 clocks, 200 pounds of coffee, 500 pounds of tea, 300 weight of sugar and 800 pounds of wax candles, as well as scores of wagon-loads of furniture, pictures, plate and china. The suites and retinues numbered nearly 800 persons. A fire brigade was also dispatched from Vienna, as well as three military bands and a company of actors.

ONE of the causes of the terrible distress and pitiful poverty of the mining regions of Pennsylvania, says a Philadelphia paper, is the importation of foreign labor. Poles, Hungarians, and Bulgarians swarm through the coal mines. The Poles sometimes make good citizens, and so do the Hungarians. The old Irish and Welsh miners confound the Bulgarians who come here with the Hungarians. The Bulgarians are a wretched lot. They come in great numbers, and will work for almost nothing. They rarely become skilled miners, but are content to remain laborers. They spend nothing. A dollar a week is a good income for one of these Slavs. Fifty or sixty of them will live in a single shanty, sleeping on the floor and eating the refuse of slaughter-houses. With their bread they use lard instead of butter. When a Bulgarian has sent home \$300 he quits the country. He has acquired an ample fortune. These people, brought here to make strikes impossible, are at the bottom of the distress in the anthracite regions, and they are beginning to make their appearance among the bituminous coal fields. Low wages, half time, and the tyranny of the company store are starving the miners and their families, and compelling them to bring up their children without education. In a few years the region will be black not only with coal dust but with the darkness of ignorance and of the crimes which spring from ignorance. The Slav is now often the victim of the miner's unconcern, and the casualties in anthracite coal mines have greatly increased within the last two years. The grubbing against these foreign pauper laborers is becoming so loud and threatening that more open enmity is to be feared. The Slav may be the cause of the revival of Molly Maguireism.

A Literary Institute.

The second institute of Wayne township was held Saturday, Nov. 14, at school No. 8, presided over by Miss Green. Miss Probasco was chosen secretary and Miss Green and Mr. Greer were appointed as committee on resolutions. The exercises were opened with music, after which Mr. Gaffney delivered a very interesting address. Mr. Gaffney was chosen an honorary member of the Wayne township circle. Miss Burgess then called a class in geography, after which Miss Gaffney read a very nice essay on "Reading." Mr. Philley gave a very interesting talk about the "Graves of Our Presidents," and Miss Green then conducted a class in physiology.

The exercises in the afternoon were opened with music, followed by a class in reading by Miss Probasco. Mr. Greer gave his manner of teaching spelling, which was listened to with interest.

The institute meets next at school No. 6, where Adams and Washington township will join Wayne. The resolutions thanked Mr. Gaffney for providing a conveyance and Mrs. Dalman for dinner. The SENTINEL was asked to publish the proceedings.

WHY are children like jelly? Because as they are molded so they will turn out.

I have been afflicted with catarrh for 20 years. It became chronic, and there was a constant dropping of mucous matter from the roof of my mouth. It extended to my throat, causing hoarseness and great difficulty in speaking, indeed for years I was not able to speak more than thirty minutes, and often this with great difficulty. I also, to a great extent, lost the sense of hearing in the left ear, and of taste. By the use of Ely's Cream Balm all droppings of mucous has ceased and my voice and hearing has greatly improved.—Jas. W. Davidson, attorney at law, Monmouth, Ill.

CHRONIC LOOSENESS OF THE BOWELS Results from imperfect digestion. The cause lies in the torpidity of the liver. A regular habit of body can be secured by taking Simmons Liver Regulator to aid digestion, to stimulate the dull and sluggish liver, and rid the system of excessive and poisonous bile. The regulator corrects acidity of the stomach, cures dyspepsia and permanently creates regularity of the bowels alike free from irritation or costiveness.

"I have never seen or tried such a simple, efficacious, satisfactory and pleasant remedy in my life as Simmons Liver Regulator. H. Hainer, St. Louis."

A BIBLICAL QUESTION.

An Amusing Political Anecdote of Former Days and Men.

There was a lawyer in New York in those days who had a good deal of "legislative business" (as it was called) at Albany, and had the reputation of being able to get almost any little private bill through the Legislature snugly and quickly. One day this lawyer brought up such a bill to Albany, put it into the Assembly, passed it by

unanimous consent, rushed it into the Senate, got it through by unanimous consent in that body, and brought it the same day into the Executive Chamber with his own hands, for the Governor's signature. General Chamberlain took it, and promised to lay it before his Excellency at the earliest moment.

The lawyer went down to the Delavan House, had his dinner and a small bottle of wine, consulted the time-table, and found he had time to run up to the capitol again and see that this bill was really signed before returning to New York.

PECULATION.

"Going to the lodge to-night; must have plenty of small change about me."

When he opened the door of the Executive room he beheld the General seated in his chair in a reflective attitude, with his forehead and his eyes fixed upon vacancy. He started and stared when asked about the little bill.

"F-f-fact is," he explained, "I f-f-for-got all about your b-b-bill! You see I've been c-c-considering a deep B-B-B-biblical question."

"A Biblical question?" said his visitor, "what the deuce is that?"

"W-w-w-why!" said the General, "I was t-t-tryin' to think w-w-w-what it was that

"What he said to Zacchaeus? Why, he said: 'Come down, Zacchaeus!' that's what he said. But what has that got to do with signing my bill?"

"The v-v-v-very thing!" ejaculated the General, snapping his fingers, "the very thing! Come down, come down, that's what he said, didn't he? I thought it was something like that!" And he relapsed into a deep silence.

last remark broke upon him, and then there was a little whispering business talk, and he departed with the signed bill and an injunction of secrecy. But he thought the Biblical story too good to keep, and it soon became current in the lobby. The General was known thereafter as the "Biblical Question." —N. Y. Journalist.

Fort Wayne Roads and Freight.
The shipments of flour, grain and provisions from Chicago to eastern through stations by the pool lines during the week ending Saturday, Nov. 14, amounted to 29,390 tons, against 27,586 tons during the preceding week, an increase of 1,804 tons. Shipments of flour increased 666 tons; those of grain increased 340, and those of provisions increased 704 tons. The Nickel Plate road carried 3,263 tons, and the Pittsburgh, Fort Wayne and Chicago road 5,176 tons, or next to the largest shipment.

EPITHELIOMA! OR SKIN CANCER.

For seven years I suffered with a cancer on my face. All the simple remedies were applied to alleviate the pain, but the place continued to grow, finally extending into my nose, from which came a yellowish discharge very offensive in character. I was also inflamed, and a constant debilitated condition. A year ago I was in Atlanta, at the house of a friend, who so strongly recommended the use of Swift's Specific that I determined to make an effort to procure it. In this I was successful, and began its use. The influence of the medicine at first was to arrest the progress of the disease, allay the inflammation, and allay, and I began to improve after the first few bottles. My general health has greatly improved. I am stronger, and able to do any kind of work. The cancer on my face began to decrease and the ulcer to heal. Now there is but a residue of it, and only a little scar marks the place where it had been. I am ready to answer all questions relative to this cure.

Mrs. JOICE A. McDONALD,
Atlanta, Ga., August 11, 1885.

I have had a cancer on my face for some years, extending from one cheek bone across the nose to the other. It has given me great deal of pain, at times burning and itching to such an extent that I was unable to sleep. I commenced using Swift's Specific in May, 1885, and have used eight bottles. It has given the greatest relief by removing the inflammation and restoring my general health.

W. BARNES.
Knoxville, Iowa, Sept. 8, 1885.

For many years I was a sufferer with cancer of the nose, and having been cured by the use of Swift's Specific, and resolved to try it. I commenced taking it in April, 1884. My general health was much improved, yet the cancer which was in my breast, continued to grow slowly at first, but gradually grew and became quite heavy. I felt that I must either have it cut or die. But it commenced discharging quantities of almost black, thick blood. It continued healing around the edges until February, when it was all cut up and well.

B. WOOD.
Cocheaset, Plymouth co., Mass., July 13, 1886.

Swift's Specific is entirely vegetable, and seems to cure cancers by forcing out the impurities from the blood.

The ladies sewing society of St. John's Duthera church, will meet at the home of Mrs. Rau, in Bloomingdale next Thursday.

The state fish commissioner had 3,000 carp left with him by the United States commissioner in the recent apportionment, which he will distribute to applicants in the spring.

Capt. E. B. Smith will not accept the position of transfer agent at the south depot. The salary of \$800 a year was too small for him.

Do not fail to purchase a ticket for Miss Anderson's subscription concert. The first entertainment will be given by the Mendelssohn Quintet club Thursday evening in the Masonic Temple.

There was trouble to organize juries this morning. The attorneys in the circuit and superior courts objected to men who had served in a year and the sheriff had to lasso men on the street.

Edwin Kilpatrick is on trial in the circuit court, charged with being the papa of Milinda Chaney's child. The woman and her babe are in the court and it is likely to go hard with the alleged father.

Peter Veith and George Strodel sue Eliza Hanna, Eliza Hayden, Fred J. Hayden and about thirty others to quiet title to real estate. The suit is but formal to square the record. The Colericks are attorneys.

The cottage meeting of the R. R. Y. M. C. A. will be held this evening at the residence Mrs. E. Draeger, 42 East Third street. All families in the vicinity cordially invited.

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL, are as follows: Fair warmer weather, followed by local rains, falling barometer, winds generally shifting to southerly.

Capt. E. T. Chaffee, of Greencastle, a brother of Dr. W. C. Chaffee, is in the city. The captain is general traveling agent of the Local Preachers' association for Fort Wayne college. He is a very agreeable gentleman and one whom it is a pleasure to meet," says the Hunting-ton Herald.

Henrietta Kelker asks for a divorce from Samuel Kelker to whom she was married at Van Wert in 1879. Samuel abused the woman and then abandoned her and two children. She wants to be released from his unhappy control and asks the custody of her daughters. Mr. Jim Robinson nicely filed the complaint.

Mr. A. C. Trentman pays Mr. T. P. Keator quite a compliment in this note: "DEAR SIR—In accepting your resignation as one of my traveling salesmen, in order that you may engage in your old and chosen profession of journalism, allow me to wish you the greatest success.

And surely if you apply to that the same energy, industry and faithfulness that you did to my interests, you will succeed abundantly." Mr. Louis Goeke, an energetic young man, succeeds Keator on the road.

"Princess Trebizonde," the musical comedy which was given here last month by the Allison & Felch company, will again be presented at the Academy of Music Thursday, Friday and Saturday matinee. The company is well known in this city as their former performance given here was the best of the season. The play is full of wit and humor and the company throughout is first-class and should be greeted with a packed house. The price of admission has been placed at 10, 20 and 30 cents.

The attention of our readers is called to the large advertisement of A. S. Lau-ferty & Co., the pioneer clothiers of Allen county. This firm commenced business in Fort Wayne in 1848 and have carried on a successful business up to the present time. SAUSAGE OR BLOOD.

Mike Hagenrider's Demand of Leopold Wolf, the Broadway Butcher.

Mike Hagenrider, a fellow who has frequently figured in police court, went to Leopold Wolf's meat market, on Broadway, last evening and asked for sausage. He owes Mr. Wolf \$35 now and the butcher would not yield until he put eyes on cash. Hagenrider pounced onto Mr. Wolf, who in the struggle knocked the fellow down and drove him from the shop after a severe fight.

Hagenrider procured a club and returned, but Mr. Wolf threatened his life and he paced the street near the meat market and carried a sling shot with which he threatened to kill Wolf on sight. Mr. Wolf had the man arrested and he is now answering the serious charge. It is improbable he can give bond and he may have to lie in jail. He has a wife and four or five children dependent on him, but he is not thrifty.

The Salinger Assignment Cases.

The hearing upon the petition for the examination of A. Salinger and the preferred creditors is set for next Monday morning at Lafayette. In the matter of the replevin of the property, the court made no order, as the assignee has not yet qualified.

About 2 o'clock yesterday afternoon Solomon Austrian, of Cleveland, who is at Lafayette in the interest of Mann, Austrian, Wise & Co., through their attorney, H. W. Chase, got out a writ of replevin on Mr. Salinger's stock for sixty-two children's and boys' overcoats, thirteen suits of men's clothing, ten suits of school children's clothing, eight coats and eight vests, all of the value of \$501.50. The sheriff took possession of the stock under this writ, and the only recourse of the preferred creditors is to file security and get the coroner to take the goods from the possession of the sheriff. These proceedings are probably the beginning of a bitter contest.

They Again Defeat the Bulgarians With Great Loss.

Greece Threatens to Invade Macedonia and the Cable News is Generally Startling.

FRESH LAURELS.

The Successful March of the Servians to Sofia.

By Cable to THE SENTINEL.

BELGRADE, Nov. 17.—General Topolovitch, with the Moravia division, had a desperate battle with Bulgarians at Trn and the latter were totally defeated. The Servians fought with great gallantry and captured two guns and many prisoners. Three battalions of Bulgarians surrendered. A battalion of Bulgarian volunteers stationed at a point on Timok river, capitulated without firing a gun.

To Colonel Djukimitch, commanding the Servian Timok division: "The Bulgarians yesterday evacuated their fortified position at Dragoman which the Servians attacked on Sunday. The details of the capture of Dragoman pass by Servians, show that the Diems and Shumadja divisions under Colonels Michkovitch and Benecky were engaged and attacked the Bulgarians in force, completely routing them. Hordes of the Bulgarians laid down their arms, being panic stricken. Several guns were captured and the pass abandoned."

The headquarters of the Servian army has been fixed at Tvrakrod. The Servian division, marching on Middin, gave battle to the Bulgarians near Middin and inflicted upon them a crushing defeat. The loss is heavy on both sides. The Servians captured 1,000 prisoners.

BELGRADE, November 16.—It is reported from the front that the Servians, having turned the Dragoman pass, are now marching on Sofia, and that the road to the line of intrenchments of that city is clear.

MANKIN, November 16.—The pope has recognized Spain's sovereignty over the Caroline islands and advises Germany to accept the concession, contained in the Spanish note of September 10. The decision, it is said, was presented to Germany and Spain to day.

PIROT, November 16.—The Bulgarian troops are making an obstinate retreat along the whole line. Five hundred Bulgarians have been taken prisoners. The Servian telegraph officials have been forbidden by their government to accept from foreign war correspondents, any dispatches relating to the movements of the army.

CONSTANTINOPLE, November 16.—The fifth and probably last sitting of conference on the Roumelia question was held to-day. M. Neliloff, the Russian ambassador, was present. The delegates agreed on the principal points at issue. It is believed that owing to the efforts of Germany, it will be possible to localize the war in the Balkans.

LONDON, November 16.—The Times severely censures the conduct of Servia, in declaring war against Bulgaria and says: "It is evident that Servia acted on the prompting of Austria, and although it is not to our interest to prevent a conflict between Russia and Austria, we cannot help feeling that Austria's course of action is neither dignified nor straight forward, and she will refuse to accompany Germany in the line of reference to Russia. This portends serious changes in the system of European states."

LOXDON, November 16.—The long overdue steamer, Sidonian, of the Anchor line, has been towed into St. Michaels by the Italian steamer, Independe. The Sidonian left New York September 19, for Genoa and Leghorn. She was reported with shaft broken and was last seen on October 22.

It is reported that King Milan, at the head of a body of his troops, attempted to attack the Bulgarian rear, but was met and repelled by a force under Prince Alexander.

PARIS, November 16.—Prime Minister Briand, in accordance with the program announced on Saturday, made

a statement in the chamber of deputies, to-day, of the intentions of the government. He said the government would not hesitate to adopt fresh measures of taxation if it were necessary to cover the deficit in the finance department, arising from commercial depression, and military expenditures. He hoped the French protectorate over Annam would shortly show good results and permit the recall of a portion of the French troops in that country in the coming spring. A residency general will be established there at the capital city and an administration adopted for the government of the country, similar to that of Tunis. The cabinet will shortly ask the chamber to vote first credits on account of Madagascar, when the government will furnish further details thereon. He said the cost of the expeditions to Tonquin and Madagascar had borne too onerously upon the finances of the government and it behaved France to abandon her former policy, basing, however, due regard to the national interests and the honor of the country. It was proposed, therefore, to establish a system of protection at Hué which should radiate throughout Annam and Tonquin and at the same time carefully avoid everything that might lead to the eventual annexation of those countries. The king of Annam would administer the government of the whole country under the guidance of the French resident. The statements made by the prime minister are taken to indicate the collapse of the French enterprises in Tonquin and Madagascar.

RANGOON, November 16.—The steamer Dooowoon recently sent to Mandalay, to bring away the Europeans detained there by the Burmese government, has escaped from there and reached the British lines. When the authorities at Mandalay discovered the Dooowoon moving out into the river, they opened a heavy fire on her and sent a force to board her. The boarding party were repulsed by the crew of the Dooowoon and having got on a full head of steam, the vessel ran the gauntlet and escaped with little injury. The Italian consul and the other Europeans are still detained at Mandalay, not having been able to get on board the Dooowoon.

GREECE INTO WAR.

ATHENS, Nov. 17.—The invasion of Macedonia by the Greek army is imminent.

The B. & O. Railroad.

By Telegraph to THE SENTINEL.

BALTIMORE, November 16.—The annual meeting of the stockholders of the Baltimore & Ohio railroads was held to-day, when the fifty-ninth annual report of the president was read. The report shows the revenues from the main stem and the several divisions for the past year to have been \$16,999,960 or \$2,819,965 less than for last year. The earnings of the main stem were \$9,733,231 and expenses \$5,763,551. The surplus fund amounts to \$47,814,615. The report says that work on the line between Baltimore and Philadelphia is nearly completed and the track laid for 87 miles of the distance and the remainder being pushed rapidly. It is expected the bridge over the Susquehanna river will be completed by the first day of January next.

During the year \$215,643 was disbursed for the relief of members of the Employes' Relief association. The following stockholder directors were elected: William F. Burns, Spear Nicholas, John Gregg, William W. Taylor, J. C. Cole, G. A. Von Lengen, D. H. Miller, Joshua G. Harvey, George W. Dobbins, Henry C. Smith, Abrey Pearce and Harrison Garrett. The president will be elected at the next monthly meeting of the board of directors. No opposition to the re-election of Robert Garrett is known.

Is It True?

By Telegraph to THE SENTINEL.

CINCINNATI, November 16.—It is rumored here to-day that Azari, one of the Italian murderers charged on Saturday, was not killed and at the time when the collars were opened at the cemetery his body had changed its position and showed signs of life. It is said that the attendants, alarmed at the discovery and fearing that the murderer's restoration to life would cause him to suffer a second hanging, hastily screwed down the collar lid again. The collars were placed in the vault, owing to the indications that the bodies, if buried, would be taken from the graves. Mr. E. G. Meli, president of the society for the burial of indigent Italians, to whom the bodies were delivered, was seen today in relation to the rumor. He admitted that the body of Azari had changed its position, but believed that life was extinct when the collars were opened.

The Billiard Match.

By Telegraph to THE SENTINEL.

CHICAGO, November 16.—A large

crowd was present at the 14-inch balk line billiard tournament in which Maurice Vignaux, of Paris; Jacob Schaeffer, of New York, and George F. Slosson, of Chicago, are the contestants. The winner of the tournament is to be entitled to receive the whole of a purse of \$3,000 and the excess of receipts over expenses. It is expected that the prize will aggregate \$5,000. The tournament was formally opened shortly after eight p. m. by an address by Judge Cary, of the superior court of Chicago. As each of the players was introduced, a hearty round of applause was given, Slosson getting rather the warmer reception. Wayman McCrory, of St. Louis, acted as referee and Charles Matthews served as umpire. At the end of the seventh inning the score stood Slosson 265, Vignaux 214. The best run was made in this inning by Slosson, who scored 49 points.

Game well contested. Slosson on the thirty-first inning 600; Vignaux 431. Highest runs, Vignaux 106; Slosson 89. Winner's average 19 11-13.

BRIEF TELEGRAMS.

OTTAWA, November 16.—On order in council has been passed, appointing Lieutenant A. R. Gordon, Toronto, a court tribunal, to hold an investigation into the wreck of the steamer Algoma.

CINCINNATI, O., November 16.—In the election mandamus case, before the circuit court, to-day, arguments were begun. They will probably be concluded to-morrow.

LOTUSVILLE, Ky., November 16.—Deputy United States Marshal, H. W. Rogers, has been shot and fatally wounded in Harlan county, Kentucky, by an unknown assassin, who fired through the window at which Rogers was standing. He had been threatened by parties whom he had arrested for violating the revenue laws.

DERRICK, November 16.—Andrew Dempster, assistant train master of the Michigan Central, while working in the yards here, to-day had his skull fractured by lumber that was knocked off a car, from the effects of which he died.

GALVESTON, November 16.—At a mass meeting held this afternoon, to secure a popular expression in regard to the advisability of accepting aid from other cities, a resolution was passed, appointing a committee of ten to telegraph to the newspapers, and individuals that the loss was far greater than at first supposed, being fully \$2,500,000 or one-eighth of the taxable value of the city. The immediate and proximate distress is very great, despite the efforts of the people of Galveston and that proffered aid will be thankfully received.

CINCINNATI, Ohio, November 16.—Governor-elect Foraker this afternoon announced that the following will be his official appointments: Private secretary, Charles L. Kurtz, of Athens; executive clerk, Chas. E. Prior; of Cincinnati; assistant executive clerk, George A. Benton, of Columbus. Judge Foraker leaves Wednesday night for Ithaca, N. Y., to attend a meeting of the trustees of Cornell University.

CHICAGO, November 16.—W. P. Reed & Co., large owners and operators of coal mines in the Hocking Valley region, to-day telephoned their superintendents to accede to the demands of the striking miners, by increasing wages from 50 to 70c. Mr. Reed said to-day: "Our firm has all along favored this advance and I have presided at two meetings in Columbus and used every means in my power to induce the other mine owners to agree to the increase asked by the men, but in vain. To-day we determined to act independently and it is probable that our interests there are large enough to force the others to follow us and end the strike."

Character-Building.

In character-building, as in building a house, it is important to have a plan to build by. If you would build well, study the best models—men and women of the best type—but remember the most famous are not always the best. Study the pictures drawn by the pens of inspired men, but study most the character of the man Jesus. His character was perfect. It is important, also, to build on a good foundation. When a man determines to put up a costly structure he is careful that no defect is found in the foundation. Be sure to start right, "other foundation can no man lay, but that which is laid, which is Jesus Christ." The make Jesus both your model and your foundation.

GUARDING A "ROLLER COASTER."

La Fayette's new "roller coaster" at Linwood Park has a vigilant night watchman in ex-Policeman John McGrath, who is careful to see that no daring spirits take surreptitious rides upon the coaster during the hours of darkness, and who is himself a most fearless and gallant rider. Mr. McGrath is a hearty looking man, but yet has had occasion to lament the fact "that a policeman's lot is not a happy one." The truth is Mr. McGrath has suffered from that distressing complaint—rheumatism, but he is no longer afflicted with it. Athlophones cured him and he is now as well able to chase down any evildoer and land him behind bolts and bars as he ever was. Being asked as to his rheumatism and cure Mr. McGrath gave this account:

"I was taken with a severe attack of rheumatism in the hip. I suffered much pain and was obliged to quit work entirely. I was helpless so far as walking was concerned and was confined to my bed for six weeks. In my efforts to get relief I used many kinds of medicines and liniments, but they failed to make any change for the better. After trying so many kinds of medicines I was very loath to experiment with any new remedy, but seeing Athlophones recommended so highly I purchased a bottle. After using the one bottle I was entirely well and able to go to work. Have I had any return of the pains since? None whatever. I have not lost a day's work since."

Mr. W. B. King, the dealer in sewing machines at the corner of Fifth and Columbia streets, has had an equally satisfactory experience with Athlophones in curing rheumatism.

"It was magical in its effects upon me," he says. "I was first taken with pain in the soles of my feet and in a few hours was not able to walk at all. The rapidity with which the disease spread over my whole system was wonderful. Every bone, muscle and joint in my body gave me the most intense pain. My arms were both drawn up, and I could not walk, eat or sleep. I suffered in this way for many weeks. Finally, by the persuasion of a friend who knew of Athlophones, I was induced to try it. I had taken but a few doses when I had very decided relief. I continued taking the medicine until I had used six bottles, and I have not had a pain of rheumatism since."

Still another resident of La Fayette, Ind., who has used the wonderful remedy with the happiest results is Mrs. A. E. Sherman, of No. 139 Main street, who suffered so severely with sciatic rheumatism that at times she could not walk.

"I tried every kind of liniment, besides many medicines," says Mrs. Sherman, "but could get no relief. I finally said: 'Well, I am going to try this Athlophones; it is spoken of very highly.' After using about three-quarters of a bottle I began to experience relief. I used about three bottles and have not had any pain since. My mother, Mrs. Lain, who lives with me, is now seventy-seven years old, and for about five years was badly crippled with rheumatism. She was much worse than I; in fact, at one time we thought she would never get well, and more as an experiment than anything else I gave her a quarter of a bottle of Athlophones. She got some relief even with that small amount and continued using it to the extent of four bottles. She does not have any pain now, but still has some stiffness in her joints."

If you cannot get Athlophones at your druggist's, will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed. Athlophones Co., 112 Wall Street, New York.

THREE years ago Jay Gould had \$10,000,000 in stocks and bonds, and he has no doubt since then added one quarter or more to the principal. The way in which his possessions were then known is thus explained: His credit was severely attacked at that time and he therefore made an exhibit of his resources to John T. Terry, who certified to the fact, "I could suffer his share in the shrinkage, but on the other hand he has made immensely out of the law and the telegraph. His wealth may now be estimated at \$75,000,000.

THIS is the proclamation up at Michigan City: "Either run a town with a sum or just sell out and leave it. Men who are all the time trying to get out of business will never try to build either. One of two things must be done: run the town for all it is worth, get up steam and keep it up, or quit the whole thing, sink or swim and let nature take its course. Do you want trade? Bid for it by ad-

vertising. Do you want business to come to your town? Encourage those who do come. Then work together for a common prosperity and mutual benefit."

THE manager of an electric company says that it is found that wherever steam is used to obtain twenty-five horse power or less, electricity is more economical. The advantages are: a smaller space occupied, much less noise and no heat, and the fact that the power can be turned on or stopped at will. There is no boiler required and no fire, as the power is supplied to the motor by wires from a central station, on the same principle that gas or steam heat is supplied.

THE sexton of a Connecticut graveyard says that an English gentleman who visited the place last summer "lifted three graves" to find a ancient ring believed to have been buried with its wearer, one of the earliest settlers of Connecticut. The ring was wanted to make good a claim to certain property in England, question being raised as to the authenticity of the impression on certain seals. The necessary permission having been procured, the Englishman, a lawyer, representing a well-known family, sifted with the utmost care the three graves, but the dust of mortality yielded up no ring, and he returned to England empty-handed.

THE expense to the Emperor of Austria, or rather to his subjects, of the recent Imperial meeting was something extraordinary. It is said, in fact, to have been the most costly thirty hours in the history of royal interviews. There was sent from Vienna 500 beds with bedding, 60 court carriages, 150 horses, 1,000 pieces of carpet, 400 pairs of curtains, 300 complete breakfast services, 7,000 sets of silver forks and spoons, 400 coffee-pots, 300 tea-pots, 10,000 wine glasses, 10,000 plates, 1,500 bottles of the finest Rhine wines, 2,500 bottles of claret, 3,000 bottles champagne, 300 bottles of liquors, 200 clocks, 200 pounds of coffee, 500 pounds of tea, 300 weight of sugar and 300 pounds of wax candles, as well as scores of wagon-loads of furniture, pictures, plate and china. The suites and retinues numbered nearly 800 persons. A fire brigade was also dispatched from Vienna, as well as three military bands and a company of actors.

A Literary Institute.

The second institute of Wayne township was held Saturday, Nov. 14, at school No. 8, presided over by Miss Green. Miss Probascio was chosen secretary and Miss Green and Mr. Green were appointed as committee on resolutions. The exercises were opened with music, after which Mr. Gaffney delivered a very interesting address. Mr. Gaffney was chosen an honorary member of the Wayne township circle. Miss Burgess then called a class in geography, after which Miss Gaffney read a very nice essay on "Reading." Mr. Philley gave a very interesting talk about the "Graves of Our Presidents," and Miss Green then conducted a class in physiology.

The exercises in the afternoon were opened with music, followed by a class in reading by Miss Probascio. Mr. Green gave his manner of teaching spelling, which was listened to with interest.

The institute meets next at school No. 6, where Adams and Washington townships will join Wayne. The resolutions thanked Mr. Gaffney for providing a conveyance and Mrs. Ballman for dinner. The SENTINEL was asked to publish the proceedings.

We are children like others because as they are molded so they will turn out.

I have been afflicted with catarrh for 20 years. It became chronic, and there was a constant dropping of mucous matter from the roof of my mouth. It extended to my throat, causing hoarseness and great difficulty in speaking, indeed for years I was not able to speak more than thirty minutes, and often this with great difficulty. I also, to a great extent, lost the sense of hearing in the left ear, and of taste. By the use of Ely's Cream Balm all droppings of mucous have ceased and my voice and hearing has greatly improved.—Jas. W. Davidson, attorney at law, Monmouth, Ill.

THE BABY'S BANK.
A Story of Domestic Life, in Eight Chapters.

HEAVING A SAVINGS BANK FOR THE BABY.
"We'll open it in a year from now."

A BIBLICAL QUESTION.

An Amusing Political Anecdote of Former Days and Men.

There was a lawyer in New York in those days who had a good deal of "legislative business" (as it was called) at Albany, and had the reputation of being able to get almost any little private bill through the legislature amply and quickly. One day this lawyer brought up such a bill to Albany, put it into the Assembly, passed it by

unanimous consent, rushed it into the Senate, got it through by unanimous consent in that body, and brought it the same day into the Executive Chamber, with his own hands, for the Governor's signature. General Chamberlain took it and promised to lay it before his Excellency at the earliest moment.

The lawyer went down to the Delavan House, had his dinner and a small bottle of wine, consulted the time-table, and found he had time to run up to the capitol again and see that this bill was really signed before relating to New York.

IV.

"Going to the Jodre to-night; meat have
plenty of small change about me."

When he opened the door of the Executive room, he beheld the General seated in his chair in a reflective attitude, with his forehead and his eyes fixed upon vacancy. He started and stared when asked about the little bill.

"F-f-fact is," he explained, "I f-f-forgot all about your b-b-bill! You see I've been re-considering a deep B-b-biblical question."

"A Biblical question?" said his visitor, "what the deuce is that?"

"W-w-w-why?" said the General, "I was t-t-t-tryin' to think w-w-w-what it was that

"What I said to Zacheus?" Why, he
said, "Come down, Zacheus!" that's what
he said. And what has that got to do with
signing my bill?"

"The w-w-w-thing," he replied, the
General, snapping his fingers, "the very
thing! Come down, come down, that's what
he said. And what has that got to do with
signing my bill?"

last remark broke upon him, and then there
was a little whispering business talk, and
he departed with the signed bill and an in-
junction of secrecy. But he thought the

became current in the lobby. The general

A SURPRISED NEGRO.

How an Empty Trunk Yielded to His
Muscular Strength.

If there is anything Old Nace is proud
of, it's his ability to lift heavy burdens.
He can carry with ease a trunk which few
other men can lift. He is employed in the
family of Judge Salyer, of Brethren,
whose son Fred is a student at the University
of Texas. When Fred left home for

the University, his careful mother had
packed an immense trunk for him to take
with him. Old Nace insisted on carrying
the heavy trunk to the depot, which feat
he accomplished without difficulty.

When vacation began Fred heavily, who
had been leading a rather fast life at the
University, returned to his native town.
Old Nace was on hand to carry his trunk.
He split on his hands and remarked: "Jesus
watch me yank dat ar trunk on my shoulder."
He leaned over, seized the handles, and made a mighty effort. Next moment
he was standing on his head with his feet
in the air, and the trunk was lying some
distance off, wide open. There was nothing

in a Broadway car, "don't waste your time
on me. That's a memorandum book you've
been trying to get hold of for the last five
minutes, and this watch isn't worth five
dollars."

"Sir?"

"Say, take my advice. I want to see
you get along and do well—real I do—and if I were you I'd rob a bank or go
through a train. It's just as handy, you
know, and there's always something in it."

The young man looked completely dis-
couraged as he got off the car.—N. Y.

SIMMONS

LIVER REGULATOR

For all Diseases of the

Liver, Kidneys, Stomach and Spleen.

This purely vegetable pre-
paration, now so celebrated as a
Medicine originated in the
South in 1828. It acts
gently on the bowels and
kidneys, and corrects the
action of the Liver, and in
increases the power of the
medicine, whatever the sick
man may prove to be. In all
common diseases it will, un-
assisted by any other medi-
cine, effect a speedy cure.

The Regulator is safe to administer in any
condition of the system, and under no circum-
stances can it do harm. It is impossible
for a child to swallow more than a
quarter of a grain, and it is impossi-
ble to lead to inebriety, will promote diges-
tion, dissipate headache, and generally
tonic up the system. The dose is small,
not unpleasant, and its virtues unex-
ceeded.

No loss of time, no inter-
ruption or stoppage of
business while taking the
Regulator.

Price per box, containing of
Colds, Headaches, or Stomach
aches, 10 grains, or more or less
as may be given.

If taken occasionally by
persons exposed to MALARIA,
will expel the poisons and protect
them from attack.

A PHYSICIAN'S OPINION.
I have been practicing medicine for twenty years,
and have never been able to put a vegetable
compound that would beat Simons Liver Regu-
lator, promptly and effectively move the Liver in
action, and at the same time not irritate the
whole system, and in fact give power to the
system. I. M. HARRIS, M. D., New Haven, Conn.

EPITHELIOMA !

OR SKIN CANCER.

For seven years I suffered with a cancer on my face. All the simple remedies were applied to alleviate the pain, but the place continued to grow, finally extending into my nose, from which came a yellowish discharge very offensive in character. It was also inflamed, and annoyed me greatly. At about six months ago I consulted Dr. A. C. McDonald, who strongly recommended the use of "Sassafras Specific," determined to make an effort to procure it. In this was successful, and began its use. The influence of the medicine at first was to some what aggravate the sore; but soon the inflammation was allayed, and I began to improve. After a few weeks, Mr. McDonald had given me a large amount of the medicine, and able to do his kind of work. The sore on my face began to decrease and the ulcer to heal, until there is not a trace of it left—only a little scar marks the place where it had been. I am ready to answer all questions relative to this cure.

Mrs. JAMES A. McDONALD,
Atlanta, Ga., August 11, 1885.

I have had a cancer on my face for some years, extending from one cheek bone across the nose to the other. It has given me great trouble, and been a source of vexation and grief to me. An extraction of it was a painful process, and I commenced using Sassafras Specific in May, 1885, and have delighted bottling it. It has given the greatest relief by removing the inflammation and restoring my general health.

W. BARRETT,
Knoxville, Tenn., Sept. 6, 1885.

For many years I was a sufferer with cancer of the nose, and having been cured by the use of S. S. S. I feel constrained by a sense of duty to suffering humanity to make this statement of my case. With the 11th brother the cancer began to be present, and gradually disappeared, and for several months thereafter, in consequence of a use of any kind on my nose. Now, neither is my nose at all tender to the touch. I have taken about two dozen bottles of S. S. S. and am soundly cured, and know that S. S. S. effected the cure after every known remedy was tried and had failed.

BRIGHT MEDLEY,
Fort Gaines, Ga., May 1, 1885.

I had heard of the wonderful cure of Sassafras Specific, and resolved to try it. I commenced taking it in April, 1884, my general health was much improved, yet the cancer which was in my breast continued to grow, & only but slowly. The tumor grew and became quite heavy. I felt that I must either have it out or die. But it commenced discharging quantities of almost black thick pus, & it continued healing around the edges and becoming lighter, until it was all up. BETTY SMITH,
Rockport, Plymouth Co., Mass., July 13, 1885.

Sassafras Specific is entirely vegetable, and seems to cure cancers by forcing out the impurities from the blood.

Mr. A. C. Trentman pays Mr. T. P. Keator quite a compliment in this note: "Dear Sir—In accepting your resignation as one of my traveling salesmen, in order that you may engage in your old and chosen profession of journalism, allow me to wish you the greatest success. And surely if you apply to that the same energy, industry and faithfulness that you did to my interests, you will succeed abundantly." Mr. Louis Giecke, an energetic young man, succeeds Keator on the road.

The funeral of the late Francis A. Compton will take place to-morrow afternoon (Wednesday) at 2 o'clock, from the residence of his father, David F. Compton, of No. 59 Elm street. Friends of the family are invited without further notice.

The active membership rolls of the Grand Army of the Republic contain over 250,000 names, a somewhat larger number than generally is supposed. In addition to this number it is thought there are now living nearly 50,000 veterans of the civil war not enrolled in the grand army.

The attention of our readers is called to the large advertisement of A. S. Lauferty & Co., the pioneer clothiers of Allen county. This firm commenced business in Fort Wayne in 1884 and have carried on a successful business up to the present time. They now wish to permanently retire from the trade and as seen in their advertisement offer bargains never before heard of.

SAUSAGE OR BLOOD.

Mike Hagenrider's Demand of Leopold Wolf, the Broadway Butcher.

Two More Appointments.

Mike Hagenrider, a fellow who has frequently figured in police court, went to Leopold Wolf's meat market, on Broadway, last evening and asked for sausage. He owes Mr. Wolf \$35 now and the butcher would not yield until he put eyes on cash. Hagenrider pounced onto Mr. Wolf, who in the struggle knocked the fellow down and drove him from the shop after a severe fight. Hagenrider procured a club and returned, but Mr. Wolf threatened his life and he paced the street near the meat market and carried a sling shot with which he threatened to kill Wolf on sight. Mr. Wolf had the man arrested and he is now answering the serious charge. It is improbable he can give bond and he may have to lie in jail. He has a wife and four or five children dependent on him, but he is not thrifty.
